

Focal Clear

PROVIDING HIGH LEVELS of comfort, the sumptuous Clear comes bundled with plenty of different cables and connection options that make it just as suitable for life on the road as at home. Earpad and headband cushioning is deep and luxurious using microfibre material to prevent overheating, and the 40mm dynamic drivers are backed up by 25mm voice coils. The Clear delivers a potent performance with absolute ease, and with a considerable low-end weight and a propulsive energy that ensures it sounds more like a pair of loudspeakers in free space than a pair of headphones. All-round excellence.
