

ARIA 905

Product Data Sheet

Despite its small size, the Aria 905 bookshelf loudspeaker is capable of reproducing sound worthy of a much bigger loudspeaker whilst providing very natural sound without any artificiality. The loudspeaker has detailed midrange as well as articulated and controlled bass thanks to the oversized magnetic motor of the midrange/bass speaker driver. It's a true ultra-compact hi-fi loudspeaker. The enclosure's front vent and built-in wall mount enable easy wall-mounting without constraints. It is recommended for rooms measuring from 10m² (107ft²) and for a listening distance of 2m.

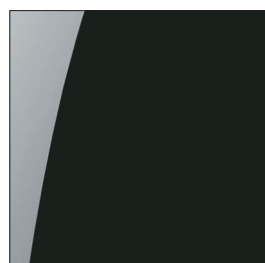

Aria 905 Noyer

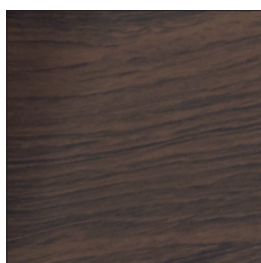

Key points

- Compact loudspeaker
- New Flax cone
- New TNF tweeter
- Black High Gloss and Noyer finishes
- Speaker drivers designed and manufactured in France by Focal

Other available finishes:

Black High Gloss

Noyer
