

HUB

Product specification sheet

The Hub is a digital wireless transmitter which transmits the audio to the loudspeakers in a quality of sound that is absolutely identical to that of a CD. Thanks to its numerous inputs, the Hub connects Easya or any other compatible wireless device to all audio sources : smartphone, tablet, computer, TV and CD player... It is also compatible with the Bluetooth® aptX® technology.

Hub Air, Black High Gloss finish

Key features

- Uncompressed, lossless, digital wireless transmission
- Analog, digital and USB inputs
- Bluetooth® aptX® compatible
- External USB sound card mode for computers
- Volume adjustment of all the sources via remote control

Selection of inputs and volume adjustment of all the sources using the remote control supplied
Playlist management (USB, Bluetooth®)
