

Focal is enriching its emblematic Flax Evo line with a new subwoofer: P 30 FSE

MADE IN
FRANCE

Focal presents P 30 FSE, a powerful, shallow depth (slim profile) subwoofer for an exceptional in-car listening experience. It joins the Flax Evo range, unveiled in 2020 and renowned for its purity of sound. In an endless quest for even higher excellence, the French brand, a beacon in the audio sector, combines the P 30 FSE with its iconic flax cone and other technologies born from its unique know-how.

COMPACTNESS AND POWERFUL BASS

Like the other products in the range Flax Evo, P30 FSE features the iconic cone made of French flax fibre, an exclusive Focal innovation. Meeting all the criteria of a high-fidelity cone, it combines rigidity, lightness and damping, delivering a natural and transparent sound. The largest subwoofer in the range (12"/30cm in diameter), this exceptional bass booster also has a slim profile, making it even more compact and easy to install inside the vehicle.

Product available: February 2024

FLAX EVO: A COMPLETE LINE

With P 30 FSE, the line of Flax Evo kits now includes **11 products**: a **2-way coaxial kit**, four **2-way component kits**, a **3-way component kit** and **five subwoofers**. In addition to the iconic Flax cone, the range includes exclusive technologies such as the TAM tweeter and the TMD® surround. Recognised worldwide for their prowess, these Focal innovations help to reproduce sound that is dynamic, perfectly balanced and of remarkable clarity. Designed to be combined with high-performance amplification, the kits have a sleek design, subtly blending a modern and timeless character. Positioned between the K2 Power range and the Slatefiber range, the Flax Evo audio kits are the ideal compromise between performance and price.
